Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-25 are remain rejected under 35 U.S.C. 102(e) as being anticipated by US 2003/0188260). See paragraph 2 of the office action dated on 6/16/06.

Response to Arguments

3. Applicant's arguments filed on 9/18/06 and 12/19/06 have been fully considered but they are not persuasive because:

Applicant argues that the cited Rajski applicant is not prior art to the present application because the provisional application of Rajski is clear that there is no support for the material cited, namely paragraphs 66-68, in fact, the corresponding Figures 4B and 4C are not provided in that provisional application.

Examiner disagrees with applicant because even though paragraphs 66-68, in fact, the corresponding Figures 4B and 4C are not provided in that provisional application. However, the cited Rajski application is still consider as prior art because the rejection can also be found in paragraph (0064) of Rajski which is supported by the provisional application of Rajski (60/447637). (See section 1. introduction, paragraphs 4-5, section 2. FFS compactor, first paragraph and section 7. experimental results, second paragraph).

Applicant also argues that Rajski's system cannot handle any numbers of scan chains with unknown values.

Examiner disagrees with applicant representative because Rajski' 60/447637, section 1. introduction, paragraph 5, discloses that Rajski's system can handle any numbers of scan chains with unknown values.

4. Claim 16 is rejected under 35 U.S.C. 102(e) as being anticipated by Mitra et al (2003/0188269) is now withdrawn.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
